

EXCEPTIONAL ANTIMICROBIAL EFFICACY IN CHALLENGING ANIMAL HEALTH ENVIRONMENTS

NEW
AND
IMPROVED
RANGE

At Byotrol, we understand the complex environmental and microbiological challenges that animal health professionals experience every day.

Our commercial partners in veterinary and animal welfare have relied upon our market-leading ANIGENE brand for many years, to protect their staff, visitors, and the animals in their care, from infection.

Byotrol has utilised its expertise in formulation chemistry to develop a new formulation for the ANIGENE brand, which answers the challenging needs of the animal health industry, and which will be registered under the UK and EU BPR regulations.

The ANIGENE range is supported by a robust data set, tested to veterinary protocols, compliance with all relevant regulations, and comprehensive training resources which are designed to enhance compliance and end-user health and safety.

Tested to Veterinary
standards

Biodegradable
ingredients

Chlorine, ammonia
& phenol-free

No rinsing
required*

ANIGENE

Powered by

ANIGENE is a range of professional surface disinfectant cleaners, for use in environments where the health and wellbeing of animals is of paramount importance. With a new and improved formulation, our next-generation ANIGENE range combines powerful biocidal active ingredients to provide exceptional efficacy against animal-specific pathogens, even in challenging animal health settings.

Flexible dilution rates

ANIGENE can be used at varying dilutions, for a more flexible solution, allowing customer sites to tailor dilution rates to their specific challenges. Please check the label on pack and dilution training resources for more details.

Effective outbreak management

ANIGENE** is DEFRA Approved for

- General Orders
- Poultry Orders

EXCEPTIONAL ANTIMICROBIAL ACTIVITY

Bactericidal, yeasticidal, virucidal & fungicidal.

Effective against a wide range of animal-specific pathogens including Avian Influenza (H5N1), *Pseudomonas aeruginosa*, Canine parvovirus, FIV, Herpes Simplex virus, *E. coli*, *Leptospira*, *Salmonella typhimurium*, *Trichophyton mentagrophytes*, *Campylobacter jejuni*, *Bordetella bronchiseptica*, *Brucella canis*, Feline coronavirus and many more.

ANIGENE is tested to the following mandatory European veterinary (PT3) test standards:

- EN 1656 (bactericidal)
- EN 1657 (yeasticidal & fungicidal)
- EN 14349 (bactericidal)
- EN 16438 (yeasticidal & fungicidal)
- EN 14675 (virucidal)

Additional standards:

- EN13610 (bacteriophages)
- EN13623 (legionella)

Added Benefits:

- Available in RTU Trigger spray, 1L, 5L, 25L and 1000L formats
- Economical dilution rates from 1%
- Tested and effective for both indoor and outdoor use
- Approved for notifiable outbreaks by Defra, DAERA and DAFM
- Suitable for disinfecting animal enclosures, synthetic grass and more
- Biodegradable, low foam formulation is compatible with septic tanks
- Non-corrosive in use and compatible with wide range of materials
- No-rinse formulation reduces water consumption and minimises waste
- Range utilises post-consumer recycled packaging
- Complies with relevant CLP, REACH and biocidal regulations
- CPD-accredited training resources available to promote correct use and compliance
