

EXCEPTIONAL ANTIMICROBIAL EFFICACY WITHOUT COMPROMISING SAFETY

EFFECTIVE
AGAINST
ENVELOPED
VIRUSES

The COVID-19 pandemic has reinforced the importance of good hand hygiene, nowhere is this more important than in healthcare settings. Any threat to compliance rates needs to be effectively managed. INVIRTU has an important role to play in the ongoing quest for improved compliance with hand hygiene protocols in healthcare institutions.

INVIRTU alcohol-free Hand Foam Sanitiser is clinically proven to maintain the skin's natural pH balance, without the need for additional moisturising products. Encouraging good hand hygiene practice and building compliance is key in preventing the spread of infection and recent studies show users demonstrate better hand hygiene protocols if the product provides good aesthetics as well as being efficacious.

The cost of treating occupational dermatitis in healthcare workers are much higher than thought. Providing a trusted, effective alternative to alcohol gel for healthcare workers has strong financial benefits.

Doesn't sting or
damage skin

Long-lasting
antibacterial protection

Non-flammable

No risk of
alcohol poisoning

Less risk of
eye irritation

Lockable dispensers

Aligns with
religious beliefs

Compatible with a
range of gloves

Sufficient drying time
to be effective

Promotes better
skin condition

 **INVIRTU®**
Excellence in hygiene

Powered by

A holistic view of health and safety is required to ensure that vulnerable patients and visitors are not put at further risk by the implementation of inappropriate hand sanitiser. INVIRTU alcohol-free Hand Foam Sanitiser is proven to be as effective as alcohol sanitisers but comes without the additional risks associated with misuse of alcohol sanitisers, making it the ideal choice for healthcare settings.

INVIRTU Hand Foam Sanitiser helps to minimise the risk to users including vulnerable and dependent patients and is non-flammable. Used throughout NHS Trusts including Acute, Mental Health and Community Care, INVIRTU Hand Foam Sanitiser is the alcohol-free hand sanitiser of choice in the UK.

Exceptional Antimicrobial Efficacy:

- Kills 99.99% of harmful bacteria & viruses
- Effective against all enveloped viruses
- EN 1500 (hand rub disinfection)
- EN 1276 (bactericidal)
- EN 13727 (bactericidal)
- EN 1650 (yeasticidal)
- EN 13624 (yeasticidal)
